Additional cereals may be creditable! Use this table to determine if a cereal is less than 6 grams of sugar per dry ounce.

1. Use the Nutrition Facts label to find the **Serving Size**, in grams (g), of the cereal.
2. Find the **Sugars** line. Look at the number of grams (g) next to Sugars.
3. Using the serving size identified in Step 1 to find the serving size of the cereal in the table below.
(Once you have identified the serving size, look at the number to the right under the "Sugars" column.)

If the cereal has that amount of sugar, or less, your cereal meets the sugar requirement.
